Allowable Subject Matter

1. Claims 1-21 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest a method of inflating a tire, which includes determining the inflation pressure of the tire by a step-up procedure of air bursts, then inflating the tire with an extended pulse procedure, followed by a shut-down sequence once the inflation pressure is reached, wherein over-inflation of the tire is prevented.

For example, the LeChatelier reference lacks a step-up procedure of air bursts, and further includes means to allow over-inflation of the tire (i.e. a pressure relief valve will release any excess air pressure).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
